## How can you have your ideal career and get paid while doing what you like?

For many, the “ideal career” is a contradiction since work means “earning your living”. Yet, successful people like their job and consider it an expression of what they stand for. Imagine getting paid for sharing your passion for your hobby. Isn't that how your life was meant to be?

Since the Unlimited Breath deal with health, personal improvement, choosing Unlimited Breath as your ideal career gives you a profession to enjoy your profession and making your life while living a meaningful life.

As an Unlimited Breath Practitioner you live your dreams and inspire others to fulfilling, healthy and wealthy lives. You also get the pleasure to witness people attain the health and life that they always wanted.

### How can you make a living as a healer?

Some aspiring healers have given up their hope to make a living as a healer or have the “security of a guaranteed paycheck, insurance and retirement income” and retreated back to an unwanted job and do healing as a hobby. Yet, there are fulltime healers. If you really study the topic of security you will find that you have the same security as a healer as in any other profession if you apply the same attitude of trust.

As an Unlimited Breath Practitioner you can make a substantial income or work part time. As insurance you have your healing knowledge and healer colleagues that both help you prevent and heal disease. In addition, with Unlimited Network you can build your insurance, vacation and retirement funds, as you build your Support System.
